Respected Sir,

Sub: Request for stopping the publication of Export-Import Customs data of various ports/airports of India for all the HS codes.

Greetings from Gujarat Chamber of Commerce & Industry.

Sir, it has come to our notice that the export-import related custom data, which is a highly confidential data, is available every month on public domain with details of price, product, buyer, quantity etc. Due to the availability of such data, confidentiality of the transaction is jeopardized and it has become a tool of negotiation.

Sir, such leakage of highly sensitive data also puts across a bad name of our country and adversely affects our exports.

We, therefore request you to kindly look into this very serious matter on an urgent basis and take immediate measures to stop this data from any port/airport in India or any other concerned department from being published in public domain, in the interest of exporters of the country.

With kind regards,

Yours sincerely,

Yogendrakumar Trivedi
